Newham Council

1001 Dock Road, London, E16 2AA

Dear Newham Traffic Authority,

I am writing to formally contest the penalty charge notice issued to my vehicle (registration number: WF22GHZ) while it was stationed in an electric vehicle charging bay. I believe this ticket is unfair, and I would like to present my case for your consideration.

As a customer, I fully understand the importance of adhering to the Electric Bay parking regulations. However, on this, base I believe my situation warrants a review because the vehicle is on the terminal at the time active as shown on my web app, also the time the vehicle was in the bay was not even upto an hour before the ticket issued time, as I have neither overstayed nor misused the charging bay, also sign on the bay states between 8am and 9 pm 4hours no return within 2hours. I have attached evidence supporting my claim, including documentation of my charging session and timestamps that confirm my vehicle was parked within the designated time limits.

I kindly request that you evaluate the evidence provided. Given the circumstances, I seek the nullification of this penalty charge, as I find it to be excessive and unwarranted.

Thank you for your attention to this matter. I look forward to your prompt response.

Yours sincerely,

Olu – 07783911711
